

SRI LANKAN SCHOOL – MUSCAT

PRINCIPAL'S COMMUNIQUE 17 – (2011/2012)

SPECIAL SESSION FOR BUSINESS STREAM

The Management Science department is concerned that the motivation level and the examination preparedness of some students in the Business stream is much to be desired. Several parents informed me that, though the children are apparently studying for long hours, their performance at examinations is not up to the required level.

I understand that this is a common problem that parents and students have, because the normal classroom teaching is concentrated and focused on the subject content only.

We have planned a session for the students, parents and also the teachers of the Management Science Stream at 20.00 hours on Tuesday 14th February.

We will discuss the following matters at this session:

1. The enormous, yet untapped, potential of the human brain
2. Involving the right brain in studies.
3. Why children forget what they learn.
4. How to store information in the brain for easy recall.
5. How to unleash the giant within
6. Why should **parents be enlightened** about the five points above?

I request the students and the parents of Management Science stream, not to miss this session.

Note:

- It is appreciated if both parents attend
- The students will sit in between the mother and father if both are present.
- Students are requested to bring a pen and a note book
- There will be a discussion session at the end. Any parent who can contribute is invited to serve in the discussion panel.

EVENTS AHEAD

Please note that the Year Planner has the following events in the coming weeks.

15 th February	23 rd Anniversary Assembly
21 st February	Mother Language Day.
25 th February	Inter House Drama Competition

BOOK EXHIBITION

The Virtual Alumni Association has arranged a book exhibition in the school hall. Parents who are interested, are requested to visit this book exhibition and purchase books for your children. The exhibition is on from 8.00 a.m. to 4.00 p.m. this week.

BIRTHDAY GIFT FOR THE SCHOOL

The anniversary of a school is sometimes called 'The Founders' Day'.

I would like to call it 'The School Birthday'.

When children go for a birthday party of a friend, they carry a birthday present.

Please think whether the school too deserves to be given a birthday present. If you think so, a gift that would be highly appreciated is a gift of a book.

If every child gives a book to the school library, on the 15th of February, the number of books in the library will increase by 1000. Isn't that wonderful?

If you are buying a gift, please make it a book that you would give your own son or daughter on his/her birthday.
