APPLYING PRESSURE ON THE TEACHERS

I am informed by the teachers that some parents make unethical advances towards teachers to get their children's marks increased. They say that some parents plead with them and exert a lot of pressure on them. Some others are reported to be shouting at teachers at PTIs when the children have got low marks.

I request the parents to refrain from such unethical and unacceptable behavior. If you feel that your child's assessments are unfairly graded, bring it to the notice of the school authorities through the parent committee representative of the class or directly to me in writing, The school will investigate the matter and take corrective measures where necessary.

HAPPY SRI LANKAN NEW YEAR

I wish my dear students, parents and teachers a very happy Sri Lankan New Year.
